Of Boston, Mass., Chartered in 1843, Capital and accumulation, \$500,000.

THIS Company is one of the oldest, and among the most prudent and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be peculiarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of their debtors.

The undersigned has been duly appointed Agent of the above named companies, and is now prepared to take risks and issue policies upon all kinds of insurable property, (belonging to farmers, household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected, however, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given us to the responsibility of the company.

New England Mutual Life Ins.,
Of Boston, Mass., Chartered in 1843,
Capital and accumulation, \$650,000.
THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium. The directors are required to be peculiarly interested in the company, and they give their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.
THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers), household furniture, grain in barns, live stock, etc., from one to five years, at lower rates than most other responsible companies. All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been just long enough to have had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given to the responsibility of the company.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other mode, and they will have no losses upon their own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of the losses that are made upon farms, are caused by fire, and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

Mr. Walton, the nominee of the Vermont free soil convention for governor of the state, has declined. This is a very proper and sensible determination on the part of Mr. Walton, who has ever been a whig, and whose nomination by the free soilers at this time was ill-advised, if not designed for mischief. A whig convention had previously put a full ticket in nomination, a portion of which was claimed by the free soilers to have been taken from their ranks, and adopted as strong an anti-slavery platform as any body could ask. Yet notwithstanding this, and in face of oft-repeated professions of a desire to unite the anti-slavery sentiment of the state, a free soil convention was called and another ticket put in the field to divide and distract the strength it was professed to desire to combine. If this attempt at distraction shall fail, it will not be through want of effort with those who originated it. There is no earthly necessity, and can be no satisfactory excuse, for a third ticket in Vermont, and if Mr. Walton's place is filled with a new name and the ticket kept in the field, it will be conclusive evidence that the free soilers intend to aid only the loco-foco party, and that its "union" proclivities now and hereafter, as heretofore, are only available for the defeat of whig candidates.

KANSAS.—There are contradictory rumors as to the condition of affairs in this new territory. A correspondent of the Worcester Spy, writing from that region, says that a majority of the Missourians who have arrived there, far from countenancing the lawless protestations of a few of their number against the immigration of northern freemen into the territory, are opposed to slavery, and are even anxious to have northern and eastern men settle there, regarding them as the most enterprising and the best fitted to build up a flourishing state. He says the resolutions adopted by a few hot headed fanatics are by no means a fair sample of the public feeling.

If this report truly represents the feeling in the new territory, and among the people in Missouri, we shall truly rejoice, but we fear the picture is too mildly drawn. The intent of those who repealed the restriction of 1820 was to make both Nebraska and Kansas slave states, and one of the best authorities we have seen as to the movements now taking place in their settlement, says the design is to secure Kansas for slavery, even if its advocates must abandon Nebraska to accomplish their object. We hope both territories will be saved from the grasp of the slaveholders; but if they are, we must attribute their preservation to an outraged northern sentiment thwarting a well-laid plot in its inception, and peopling those vast regions with a very different population from that designed to be sent or is wanted there. In this case, good may come out of an evil design, but we shall have no thanks to offer to those who are over-ruled, and the originators and abettors of the evil are none the less deserving rebuke and condemnation.

The postmaster at Chicago writes to the editor of the Wisconsin, in answer to a letter from him relating to the delay of mail matter in his office, that he must acknowledge that the delay might occur in the Chicago office, and attributes it to sickness among the clerks. But he says for the last few days everything that has come in, has gone out regularly, and the old matter that was on hand has mostly been got off. If such is the fact, we cannot account for our receiving three numbers of the Chicago Daily Tribune yesterday morning, Friday, Saturday and Monday's issues of that paper. The non-receipt of the Chicago papers is a common occurrence. We do not think the reason given by the postmaster is sufficient to account satisfactorily for the delinquencies of his office. It is easy to see how sudden sickness among clerks might for a day or two delay the matter passing through the office, but it takes but a short time to instruct new clerks and thus obviate the difficulty. We have reason to believe that the Chicago papers are sent from the publication offices regularly to the post office; the mail comes through directly without being opened, between Chicago and this city, and yet the regular receipt of papers from there is the exception and not the rule. The department had better establish two or three more distributing offices in the north-west; the Chicago office is not adequate to the business.

CUSTOM HOUSES IN THE WEST.—The amendment to the civil and diplomatic appropriation bill, offered by Hamlin, for custom houses, etc., in the west, has been adopted in the senate by a vote of 31 to 18. The amendment contains an item of \$88,000 for a building in Buffalo, suited to custom house and post-office purposes. Milwaukee has an appropriation of \$50,000 for similar purposes, and Cleveland, Detroit and Chicago get large amounts for the same objects.

THE ADMINISTRATION AND GREYTOWN.—The New Bedford Mercury, alluding to the Greytown affair, says that the administration has shown more magnanimity than could have been expected by its most ardent admirers. It felt obliged to thrash somebody, and it has taken one of its size!

On motion of Mr. Mason, of Virginia, the senate have adopted an amendment to the civil and diplomatic appropriation bill, showing Mr. Schenck, while minister at Brazil, and Mr. Pen-dleton, while Charge at Buenos Ayres, their actual expenses and twenty-five dollars per day each, for six months, while on special business to the governments of Paraguay and Uruguay.

SYNOPSIS OF THE NEWS BY THE CANADA.

Four declined 3 shillings to 4 shillings per barrel. Wheat declined 1 shilling per hundred weight.

The Nicholas had arrived at London from the Baltic. She left Baro sound with the allied fleet on the 18th. The fleet went to Aland island. A letter from Kiel of the 19th says the French exploring army of the Baltic will disembark provisionally at Finland.

Denmark will soon abandon her neutrality.—Prussia and Austria have asked France and England for stated conditions upon which they will conclude peace. Military operations are said to be nearly at a stand. The attack on Sebastopol was indefinitely postponed, and that upon Cronstadt would not take place for a year. A pitched battle near Bucharest is anticipated.

SPAIN.—Advices from Madrid to the 18th state that the insurgents are masters of that city. A later dispatch states that a battle was fought between O'Donnell and the queen's forces; the latter were defeated and the general wounded and taken prisoner. The populace sacked the Christine palace at Salamanca.

In the English house of commons the earl of Warrington asked ministers whether Lord Westmoreland had been authorized to state to the cabinet of Vienna that Polish subjects of Russia will not be allowed to enter the English army or follow the standard of the allies. The earl of Aberdeen denied that such instructions had been given. A message from the queen asks the concurrence of the house of lords in measure for providing for additional expenses which may occur in the war, offensive and defensive against the emperor of Russia.

A private despatch from Constantinople stated that the Russians had met with a check near Batum. No change expected in the state of eastern affairs till after further consideration by the English and French governments of the conduct of Austria. Austria has fallen back into an alliance with Russia, but the Austrian reserves are to be called out and placed on a war footing.

The czar is determined not to yield, but discontent prevails at St. Petersburg. The recent victory at Giurgevo was achieved by the Turks unassisted, leaving the whole banks of the Danube from Guerin to Oltenitz in their hands.—The main body of their army is moving towards the mouth of the Danube. The Russian Danube flotilla must soon fall into the hands of the allies and the navigation of the Danube be resumed. General Awrep, having been disgraced, shot himself. The combined fleets were seen on the Black sea sailing off Akerman.

Asia.—Kerow Pacha surprised 12,000 Russians and defeated them capturing 56 guns and 4000 men. The cholera has nearly disappeared in Mexico, but the yellow fever is raging to an alarming extent; nearly 2000 cases within the past six weeks of which 1500 were fatal.

The Washington Union is trying its hand at satire, and succeeds most admirably.—It closes a long review of President Pierce's administration with the following exhibition of humor:

Nor should it escape notice that into every department of the government have been infused energy, vigilance, promptness, and economy—the necessary result of that indefatigable industry and rare devotion to the public service which so strongly characterize every member of his cabinet. Those delays heretofore deemed unavoidably incident to the vast and complicated system of public business, and which have not unfrequently been tantamount to a denial of justice to the citizen exist no longer, and the administration in this regard may challenge a parallel from the foundation of the government.

What administration, since the purer days of the republic, can present a nobler record of measures and acts, embodying and illustrating, without an exception, the truest principles of democracy?

In the illustrious roll of our patriot presidents, where, since the days of Washington, will history point to one more "clear in his high office" than Franklin Pierce? "In pace decus, in bello presidium."

A translation of the Latin of the administrative organ would be—"In peace, an honor; in war, a defence," and is a fitting sequel to the "energy," "vigilance," "promptness," "economy," "indefatigable industry," and "rare devotion" displayed by the government in all its acts and particularly exemplified in the post office department.

TERRA-CULTURE TO A NEW USE.—We find in the Milwaukee News of the 2d, under the head of "Russell Comstock and Milwaukee railroads," the following announcement:

"This distinguished gentleman, during the cholera and busy harvest season—returns to Mabbettville, Dutchess county, N. Y., his native county, to negotiate for prosecuting the construction of all the Milwaukee railroads."

"His system of terra-culture should be patronized by government."

The process by which this "distinguished gentleman," who avoids alike the "cholera" and "harvest season," is to construct all the Milwaukee railroads, (query—all on the Sentinel's map?) is not stated, but we presume his plan is to put them through a "course of sprouts." The restricted sphere of Mr. Russell Comstock we fear will prove his ruin. So towering a genius as his ought not to trammel itself with Wisconsin crops or Milwaukee railroads; the "government" ought by all means to give him a chance at the cotton fields of Florida, simultaneous with the corn crop of Illinois, and put in his charge the contemplated railroads to the Pacific in addition to the self-imposed task of constructing those radiating from the "city of bricks."

P. S. We don't make any charge against Mr. Comstock for this friendly notice, though if he will exhibit his usual appreciation of a printer's services and tender us enough today for setting up the type, we may be induced to give him another lift in his disinterested and self-sacrificing labors.

For the Gazette

Messrs Editors:—Having been lately reading some of the arguments of the friends of Lord North and the supporters of those extreme measures which drove the colonies into rebellion, I am struck with the great similarity of the reasoning with that of those who denounce the decision of our supreme court, and contend for the constitutionality of the fugitive slave act.

The same power claimed for the mother country over the colonies, is now claimed for the general government over the states. The mother country claimed the right to nullify all acts of the colonial legislatures, when they came in conflict with hers. The same is claimed for the general government here now. This power, or the right to it, was based on the assumption that the colonies had no political rights except what were given them by the royal charters; and in that there was less fallacy and more real consistency than in the position and arguments of our fugitive slave law advocates. This must be understood by the most obtuse mind. In their case the colonies were the offspring of the mother country; in ours the general government is the creation of the states. In theirs, the mother country was the creating power and unlimited; whilst ours is not only limited in its power, but actually prohibited from exercising any others except those positively specified. The constitution is a compact between the states, and out of that compact sprang the general government—a thing of borrowed powers, holding about the same relation to the states as the by-laws of a society do to its constitution.

The constitution is a perfectly plain and carefully worded document, easily comprehended by the meanest understanding, and if it gave congress the power over slavery in the states, it might easily be pointed out; but it cannot be done, for the simple reason it is not there. The powers of congress are all clearly and specifically enumerated; but it no where says that congress shall have power to provide for the rendition of fugitives from labor. No where! And the history of the proceedings of the convention that framed that instrument, proves conclusively that it never was dreamed of. The furthest step taken in this direction by that convention, was a proposition requiring fugitive slaves to be delivered up like criminals. This was objected to on the ground that it would require to be done by the executives of the state and at the public expense. Mr. Sherman said that the public had no more right to seize and surrender a slave, or a servant, than a horse.

The proposition was withdrawn, and the present stipulation contained in section 2d, article 4, that the character of property attaching to him before his escape, shall still attach to him in any state to which he may flee, (just the same as it does to a horse or other property, and must be delivered in the same way,) was substituted in its place. Clearly then the fugitive slave act is unconstitutional, and the decision of judges, nor legislative resolutions, can no more make it so than they did the alien and sedition laws; and the men who now sustain the one would have sustained the others; would have been Tories in the revolution, and sustained North and all his diabolical measures.

It is not a little remarkable how deeply those men are in love with law and order, how terribly afraid they are of the reign of anarchy; whether just or unjust, the laws must be sustained, or consequences the most awful will ensue. Now I have read history a little, and its testimony is, that nothing drives a people to madness like a rigorous enforcement of unjust laws. There is not an instance on record, to my knowledge, where a people have ever rebelled against prince or potentate in consequence of laws founded in justice and humanity. Power is certainly stealing away from the many, and centering in the few; therefore it is its centralization, not its diffusion we have to fear.

CONGRESSIONAL CONVENTION.—The state central committee appointed at the Madison state convention have called a delegate congressional convention for the district composed of Kenosha, Racine, Milwaukee and Waukesha counties, to meet at the village of Rochester, in Racine county, on the 6th of September next, to nominate a candidate to be supported at the coming election. Two delegates for each assembly district.

IS A FIX.—The Milwaukee Wisconsin says that 1057 bars of railroad iron were received there Monday morning from Quebec, consigned to order, as it was impossible to tell who owned them, the railroad business being so mixed up by the Schuyler failure.

Charles Fillmore, a brother of ex-president Fillmore, died of cholera recently at St. Paul, Minnesota. The only daughter of the ex-president, it will be remembered, died near Buffalo but a short time previous of the same disease.

Tuesday evening, Aug. 1st, we received the Chicago Tribune of 28, 29 and 31, and Young America of the 25th.

The earnings of the Milwaukee and Mississippi railroad for the month of July just past were \$36,546.86; for the month of June preceding \$45,256.26.

NASHVILLE, July 26. Dr. Jane, of this city, placed a keg of gunpowder under his house to-day and blew it up, perishing in the ruins. The fire communicated to four adjoining buildings, which were also destroyed. The loss is considerable. The doctor is supposed to have been insane.

The entire line of railway from Chicago to Alton, (227 miles) was opened on Monday the 31st of July. It is of the first importance to the southwestern travel, which more and more flows to the north.

A telegraphic dispatch from Quebec, announces the death there on Monday, by cholera, of colonel Hogarth, commanding the 26th regiment of British infantry. He was in command of the regiment during the Garzatti riots.

A FUGITIVE FROM HER OWN FATHER.—The

editor of the Vermont Tribune gives a thrilling account of a fugitive slave who has just been passed through Vermont to Canada. He says: She is 20 years of age, tall, well formed and of far more than an ordinary intelligence, able to read fluently, a member of the Methodist church, and the daughter of her master! Yes, she was running away from her own father, Rufin Gilchrist, of Easton, Md., because he had sold her to a South Carolinian for \$1,100. This Rufin had sold his own flesh and blood for so much hard cash, and but for his daughter's shrewdness and heroism would now be finger-finger the price of blood. Charlotte, the fugitive, ran away, lay secreted in the woods eighteen days, found a friend in Baltimore who sent her to a Quaker in Philadelphia by railroad, for a mode we dare not tell lest it should involve him in trouble. Her long exposure and dreadful journey to Philadelphia brought on a fever, from the effects of which she had not recovered when here at St. Albans. From Philadelphia to Boston by sea, thence to Maine, and then to avoid some bloodthirsty southerners who were on her track, she turned her steps this way, avoiding her pursuers with consummate address, and finding excellent friends all the way, good accommodations on the U. R. R., with the money given her here, she went on her hurried way to the only land where she could breathe freely.

APPLICING DISPENSATION.—We regret to learn from the Morning News of yesterday, that our state treasurer, Edward H. Janssen, lost a brother, sister and three children by the cholera, during last week. Mr. Janssen and his wife were also attacked with the disease, but are recovering. A local cause about the premises of Mr. Janssen, in Mequon, Ozaukee county, is assigned for the fatal prevalence of the cholera there. Some three years ago Mr. Janssen lost two of his children by the burning of his house, and now all the rest of the family have been swept away by the cholera. The people of this state will sympathize deeply and sincerely in this sad affliction which has befallen Mr. Janssen.—*Mil. Sent.*, yesterday.

The Evening Post offers five premiums, ranging from twenty-five dollars to six and a quarter cents, for the five best poems, to be written in commemoration of the recent brilliant achievement at Greytown. The editor says:—"Our navy has achieved a great victory; with a single sloop-of-war, one of our gallant captains has scared the inhabitants of a foreign seaport, into the woods, and burned their houses to ashes. The efficiency of lucifer matches for combustible purposes has been vindicated, and the impudence of Jamaica negroes has been rebuked. All that is now wanting is some poets to assist in transmitting this great victory to posterity."—Then follow the particulars of the affair with the statement that "in view of the difficulty of being brief upon such an inspiring topic, we have deemed it proper to limit the candidates for the highest premium to one hundred lines. Upon those who write for the lower prizes we shall impose no restriction. They need not stop until they feel perfectly relieved."

The following hints as to the manner in which the subject is to be treated, will be serviceable to those who think of "putting in" for the prizes:—Without intending to meddle with what is exclusively an affair of the muses, we may be excused for suggesting a few points which, we hope, will not altogether escape the attention of those who may be inspired with our offer. We would have them give due prominence to the fact that there were no lives lost at the fall of Greytown—that it was a bloodless victory. The extemporaneous homes selected by the people in the wood, when they heard of Capt. Hollins' intentions, deserve an allusion. It would be worth the while of any poet with a scientific turn of mind to see if he could not make something out of the difficulty experienced by our brave commander in accomplishing his purposes upon the town, in consequence of the non-resisting texture of its edifices. A good word about the peace society would be due here. We shall expect something impressive and picturesque in the description of Captain Hollins standing with his glass upon the quarter deck, depending whether to send Lieutenant Pickering ashore with a box of lucifer matches to fire the town, or to postpone the landing until the fire from his batteries had further diminished the risk of such an enterprise.

A description of the whole scene, the ship at anchor, the captain and officers in their American uniforms, the smooth sea, the hot sun, the British schooner close by with her commander and officers looking on, so as to make a faithful report of the affair to their commodore; the deserted town, riddled with balls; the dusky inhabitants peering out of the woods in the distance, that they might not lose the fun as well as their property, and, finally, Lieut. Pickering going below to get a box of matches—all these things should be brought to bear at this point, in order that the reader may have time before he is hurried to the final catastrophe to realize the vast sequences impending upon Captain Hollins' deliberation. A fainting scene, perhaps, might be worked in here to advantage. Of course we need not say we expect every candidate "to go his length" on the grand combustion scene. That would be the place for the sublimity business to come in. The piece should wind up, of course, with a suitable doxology to the honor and glory of the administration which has added this brilliant chapter to the naval annals of our country.

IOWA ELECTION.—The result of the approaching election in Iowa, looks more and more doubtful as the contest draws nearer. The once triumphant democracy in that state have received a blow from the Nebraska bill, the effect of which will be most painfully seen at the polls. We shall not be surprised to hear of the election of a whig governor, whig legislature, and one whig congressman. Of course, those who commenced this last and most unnecessary slavery agitation, will attribute the result which we apprehend to the mischievous and detestable abolitionists; but the people will know better, and fix the blame where it belongs. It is only to be regretted that the August vote cannot reach directly, that pair of demagogues who have lately misrepresented Iowa in the United States senate.—*Galena Jff.*

TRADE ABROAD.—The Paris correspondent of the New York Commercial writes: Business in Paris continues dull, and there seems to be no probability of a speedy resumption. The orders which had been received from Spain, have been since countermanded on account of the revolt. The hotels are not full at there appears to be less traveling and touring than might have been expected.

The fugitive girl who left this city for Canada a few days since, has been heard from, all safe. The underground railroad is doing more business than it ought to.—*Racine Adv.*

The cholera still continues its ravages in the town of Friendship in this county. Mr. Henning, P. M. at that place, died day before yesterday, after only about an hour's sickness. We learn this morning that there were two or three other cases there last night, but had not yet learned the result.—*Fond du Lac Herald.*

JANESVILLE : : : WISCONSIN.
THURSDAY MORNING, AUG. 3, 1854.

For telegraphic news see third page.

Mr. Walton, the nominee of the Vermont free soil convention for governor of the state, has declined. This is a very proper and sensible determination on the part of Mr. Walton, who has been a whig, and whose nomination by the free soilers at this time was ill-advised, if not designed for mischief. A whig convention had previously put a full ticket in nomination, a portion of which was claimed by the free soilers to have been taken from their ranks, and adopted as strong an anti-slavery platform as any body could ask. Yet notwithstanding this, and in face of repeated professions of a desire to unite the anti-slavery sentiment of the state, a free soil convention was called and another ticket put in the field to divide and distract the strength it was professed to desire to combine. If this attempt at distraction shall fail, it will not be through want of effort with those who originated it. There is no earthly necessity, and can be no satisfactory excuse, for a third ticket in Vermont, and if Mr. Walton's place is filled with a new name and the ticket kept in the field, it will be conclusive evidence that the free soilers intend to aid only the loco-foco party, and that its "union" proclivities now and hereafter, as heretofore, are only available for the defeat of whig candidates.

KANSAS.—There are contradictory rumors as to the condition of affairs in this new territory. A correspondent of the Worcester Spy, writing from that region, says that a majority of the Missourians who have arrived there, far from countenancing the lawless protestations of a few of their number against the immigration of northern freemen into the territory, are opposed to slavery, and are even anxious to have northern and eastern men settle there, regarding them as the most enterprising and the best fitted to build up a flourishing state. He says the resolutions adopted by a few hot headed fanatics are by no means a fair sample of the public feeling.

If this report truly represents the feeling in the new territory, and among the people in Missouri, we shall truly rejoice, but we fear the picture is too mildly drawn. The intent of those who repealed the restriction of 1820 was to make both Nebraska and Kansas slave states, and one of the best authorities we have seen as to the movements now taking place in their settlement, says the design is to secure Kansas for slavery, even if its advocates must abandon Nebraska to accomplish their object. We hope both territories will be saved from the grasp of the slaveholders; but if they are, we must attribute their preservation to an outraged northern sentiment thwarting a well-laid plot in its inception, and peopling those vast regions with a very different population from that designed to be sent or is wanted there. In this case, good may come out of an evil design, but we shall have no thanks to offer to those who are over-ruled, and the originators and abettors of the evil are none the less deserving rebuke and condemnation.

The postmaster at Chicago writes to the editor of the Wisconsin, in answer to a letter from him relating to the delay of mail matter in his office, that he must acknowledge that the delay might occur in the Chicago office, and attributes it to sickness among the clerks. But he says for the last few days everything that has come in, has gone out regularly, and the old matter that was on hand has mostly been got off. If such is the fact, we cannot account for our receiving three numbers of the Chicago Daily Tribune yesterday morning, Friday, Saturday and Monday's issues of that paper. The non-receipt of the Chicago papers is a common occurrence. We do not think the reason given by the postmaster is sufficient to account satisfactorily for the delinquencies of his office. It is easy to see how sudden sickness among clerks might for a day or two delay the matter passing through the office, but it takes but a short time to instruct new clerks and thus obviate the difficulty. We have reason to believe that the Chicago papers are sent from the publication offices regularly to the post office; the mail comes through directly without being opened, between Chicago and this city, and yet the regular receipt of papers from there is the exception and not the rule. The department had better establish two or three more distributing offices in the north-west; the Chicago office is not adequate to the business.

CUSTOM HOUSES IN THE WEST.—The amendment to the civil and diplomatic appropriation bill, offered by Hamlin, for custom houses, etc., in the west, has been adopted in the senate by a vote of 31 to 16. The amendment contains an item of \$68,000 for a building in Buffalo, suited to custom house and post-office purposes. Milwaukee has an appropriation of \$50,000 for similar purposes, and Cleveland, Detroit and Chicago get large amounts for the same objects.

THE ADMINISTRATION AND GREYTOWN.—The New Bedford Mercury, alluding to the Greytown affair, says that the administration has shown more magnanimity than could have been expected by its most ardent admirers. It felt obliged to thrash somebody, and it has taken one of its size!

On motion of Mr. Mason, of Virginia, the senate have adopted an amendment to the civil and diplomatic appropriation bill, showing Mr. Schenck, while minister at Brazil, and Mr. Pendleton, while Charge at Buenos Ayres, their actual expenses and twenty-five dollars per day each, for six months, while on special business to the governments of Paraguay and Uruguay.

SYNOPSIS OF THE NEWS BY THE CANADA.

Four declined, 3 shillings to 4 shillings per barrel. Wheat declined 1 shilling per hundred weight.

The Nicholas had arrived at London from the Baltic. She left Baro sound with the allied fleet on the 18th. The fleet went to Aland Island. A letter from Kiel of the 19th says the French exploring army of the Baltic will disembark provisionally at Finland.

Denmark will soon abandon her neutrality.—Prussia and Austria have asked France and England for stated conditions upon which they will conclude peace. Military operations are said to be nearly at a stand. The attack on Sebastopol was indefinitely postponed, and that upon Cronstadt would not take place for a year. A pitched battle near Bucharest is anticipated.

Spain.—Advices from Madrid to the 18th state that the insurgents are masters of that city. A later dispatch states that a battle was fought between O'Donnell and the queen's forces; the latter were defeated and the general wounded and taken prisoner. The populace sacked the Christian palace at Salamanca.

In the English house of commons the earl of Warrington asked ministers whether lord Westmoreland had been authorized to state to the cabinet of Vienna that Polish subjects of Russia will not be allowed to enter the English army or follow the standard of the allies. The earl of Aberdeen denied that such instructions had been given. A message from the queen asks the concurrence of the house of lords in measure for providing for additional expenses which may occur in the war, offensive and defensive against the emperor of Russia.

A private despatch from Constantinople stated that the Russians had met with a check near Batum. No change expected in the state of eastern affairs till after further consideration by the English and French governments of the conduct of Austria. Austria has fallen back into an alliance with Russia, but the Austrian reserves are to be called out and placed on a war footing.

The Czar is determined not to yield; but discontent prevails at St. Petersburg. The recent victory at Giurgevo was achieved by the Turks unassisted, leaving the whole banks of the Danube from Guerin to Oltienitz in their hands.—The main body of their army is moving towards the mouth of the Danube. The Russian Danube flotilla must soon fall into the hands of the allies and the navigation of the Danube be resumed. General Awrep, having been disgraced, shot himself. The combined fleets were seen on the Black sea sailing off Akerman.

Asia.—Kerow Pacha surprised 12,000 Russians and defeated them capturing 56 guns and 4000 men.

The cholera has nearly disappeared in Mexico, but the yellow fever is raging to an alarming extent; nearly 2000 cases within the past six weeks of which 1500 were fatal.

The Washington Union is trying its hand at satire, and succeeds most admirably.—It closes a long review of President Pierce's administration with the following exhibition of humor:

Nor should it escape notice that into every department of the government have been infused energy, vigilance, promptness, and economy—the necessary result of that indefatigable industry and rare devotion to the public service which so strongly characterize every member of his cabinet. Those delays heretofore deemed unavoidable incident to the vast and complicated system of public business, and which have not unfrequently been tantamount to a denial of justice to the citizen exist no longer, and the administration in this regard may challenge a parallel from the foundation of the government. What administration, since the pure days of the republic, can present a nobler record of measures and acts, embodying and illustrating, without an exception, the truest principles of democracy?

In the illustrious roll of our patriot presidents, where, since the days of Washington, will history point to one more "clear in his high office" than Franklin Pierce? "In pace decus, in bello presidium."

A translation of the Latin of the administrative organ would be—"In peace, an honor; in war, a defence," and is a fitting sequel to the "energy," "vigilance," "promptness," "economy," "indefatigable industry," and "rare devotion" displayed by the government in all its acts and particularly exemplified in the post office department.

TERRA-CULTURE TO A NEW USE.—We find in the Milwaukee News of the 2d, under the head of "Russell Comstock and Milwaukee's railroads," the following announcement:

"This distinguished gentleman, during the cholera and busy harvest season—returns to Mabbettville, Dutchess county, N. Y., his native county, to negotiate for prosecuting the construction of all the Milwaukee railroads. "His system of terra-culture should be patronized by government."

The process by which this "distinguished gentleman," who avoids alike the "cholera" and "harvest season," is to construct all the Milwaukee railroads, (query—all on the Sentinel's map?) is not stated, but we presume his plan is to put them through a "course of sprouts." The restricted sphere of Mr. Russell Comstock we fear will prove his ruin. So towering a genius as his ought not to trammel itself with Wisconsin crops or Milwaukee railroads; the "government" ought by all means to give him a chance at the cotton fields of Florida, simultaneous with the corn crop of Illinois, and put in his charge the contemplated railroads to the Pacific in addition to the self-imposed task of constructing those radiating from the "city of bricks."

P. E. We don't make any charge against Mr. Comstock for this friendly notice, though if he will exhibit his usual appreciation of a printer's services and tender us enough topay for setting up the type, we may be induced to give him another life in his disinterested and self-sacrificing labors.

For the Gazette.

Messrs Editors:—Having been lately reading some of the arguments of the friends of Lord North and the supporters of those extreme measures which drove the colonies into rebellion, I am struck with the great similarity of the reasoning with that of those who denounce the decision of our supreme court, and contend for the constitutionality of the fugitive slave act.

The same power claimed for the mother country over the colonies, is now claimed for the general government over the states. The mother country claimed the right to nullify all acts of the colonial legislatures, when they came in conflict with hers. The same is claimed for the general government here now. This power, or the right to it, was based on the assumption that the colonies had no political rights except what were given them by the royal charters; and in that there was less fallacy and more real consistency than in the position and arguments of our fugitive slave law advocates. This must be understood by the most obtuse mind. In their case the colonies were the offspring of the mother country; in ours the general government is the creation of the states. In theirs, the mother country was the creating power and unlimited; whilst ours is not only limited in its power, but actually prohibited from exercising any others except those positively specified. The constitution is a compact between the states, and out of that compact sprang the general government—a thing of borrowed powers, holding about the same relation to the states as the by-laws of a society do to its constitution.

The constitution is a perfectly plain and carefully worded document, easily comprehended by the meanest understanding, and if it gave congress the power over slavery in the states, it might easily be pointed out; but it cannot be done, for the simple reason it is not there. The powers of congress are all clearly and specifically enumerated; but it no where says that congress shall have power to provide for the rendition of fugitives from labor. No where! And the history of the proceedings of the convention that framed that instrument, proves conclusively that it never was dreamed of. The furthest step taken in this direction by that convention, was a proposition requiring fugitive slaves to be delivered up like criminals. This was objected to on the ground that it would require to be done by the executives of the state and at the public expense. Mr. Sherman said that the public had no more right to seize and surrender a slave, or a servant, than a horse.

The proposition was withdrawn, and the present stipulation contained in section 2d, article 4, that the character of property attaching to him before his escape, shall still attach to him in any state to which he may flee, (just the same as it does to a horse or other property, and must be delivered in the same way,) was substituted in its place. Clearly then the fugitive slave act is unconstitutional, and the decision of judges, nor legislative resolutions, can no more make it so than they did the alien and sedition laws; and the men who now sustain the one would have sustained the others; would have been Tories in the revolution, and sustained North and all his diabolical measures.

It is not a little remarkable how deeply those men are in love with law and order, how terribly afraid they are of the reign of anarchy; whether just or unjust, the laws must be sustained, or consequences the most awful will ensue. Now I have read history a little, and its testimony is, that nothing drives a people to madness like a rigorous enforcement of unjust laws. There is not an instance on record, to my knowledge, where a people have ever rebelled against prince or potentate in consequence of laws founded in justice and humanity. Power is certainly stealing away from the many, and centering in the few; therefore it is its centralization, not its diffusion we have to fear. VERITAS.

CONGRESSIONAL CONVENTION.—The state central committee appointed at the Madison state convention have called a delegate congressional convention for the district composed of Kenosha, Racine, Milwaukee and Waukesha counties, to meet at the village of Rochester, in Racine county, on the 6th of September next, to nominate a candidate to be supported at the coming election. Two delegates for each assembly district.

IN A FIX.—The Milwaukee Wisconsin says that 1057 bars of railroad iron were received there Monday morning from Quebec, consigned to order, as it was impossible to tell who owned them, the railroad business being so mixed up by the Schuyler failure.

Charles Fillmore, a brother of ex-president Fillmore, died of cholera recently at St. Paul, Minnesota. The only daughter of the ex-president, it will be remembered, died near Buffalo but a short time previous of the same disease.

Tuesday evening, Aug. 1st, we received the Chicago Tribune of July 23, 29 and 31, and Young America of the 25th.

The earnings of the Milwaukee and Mississippi railroad for the month of July just past were \$38,546.86; for the month of June preceding \$45,256.26.

NASHVILLE, July 26. Dr. Jane, of this city, placed a keg of gunpowder under his house to-day and blew it up, perishing in the ruins. The fire communicated to four adjoining buildings, which were also destroyed. The loss is considerable. The doctor is supposed to have been insane.

The entire line of railway from Chicago to Alton (227 miles) was opened on Monday the 31st of July. It is of the first importance to the southwestern travel, which more and more flows to the north.

A telegraphic dispatch from Quebec, announces the death there on Monday, by cholera, of colonel Hogarth, commanding the 26th regiment of British infantry. He was in command of the regiment during the Garrahi riots.

A FUGITIVE FROM HER OWN FATHER.—The editor of the Vermont Tribune gives a thrilling account of a fugitive slave who has just been passed through Vermont to Canada. He says: "She is 20 years of age, tall, well formed, and of far more than an ordinary intelligence, able to read fluently, a member of the Methodist church, and the daughter of her master's son, she was running away from her own father, Rufin Gilchrist, of Easton, Md., because he had sold her to a South Carolina for \$1,100. This Rufin had sold his own flesh and blood, for so much hard cash, and but for this daughter's shrewdness and heroism would now be finger the price of blood. Charlotte, the fugitive, run away, lay secreted in the woods eighteen days, found a friend in Baltimore who sent her to a Quaker in Philadelphia by railroad, for a mode we dare not tell lest it should involve him in trouble. Her long exposure and dreadful journey to Philadelphia brought on a fever, from the effects of which she had not recovered when here at St. Albans. From Philadelphia to Boston by sea, thence to Maine, and then to avoid some bloodhounds and southerners who were on her track, she turned her steps this way, avoiding her pursuers with consummate address, and finding excellent friends all the way, good accommodations on the U. R. R., with the money given her here, she went on her hurried way to the only land where she could breathe freely.

AFFLICTING DISPENSATION.—We regret to learn from the Morning News of yesterday, that our state treasurer, Edward H. Jannsen, lost a brother, sister and three children by the cholera, during last week. Mr. Jannsen and his wife were also attacked with the disease, but are recovering. A local cause about the premises of Mr. Jannsen, in Mequon, Ozaukee county, is assigned for the fatal prevalence of the cholera there. Some three years ago Mr. Jannsen lost two of his children by the burning of his house, and now all the rest of the family have been swept away by the cholera. The people of this state will sympathize deeply and sincerely in this sad affliction which has befallen Mr. Jannsen.—Mil. Sent., yesterday.

The Evening Post offers five premiums, ranging from twenty-five dollars to six and a quarter cents, for the five best poems, to be written in commemoration of the recent brilliant achievement at Greytown. The editor says: "Our navy has achieved a great victory; with a single sloop-of-war, one of our gallant captains has scared the inhabitants of a foreign seaport, into the woods, and burned their houses to ashes. The efficiency of lucifer matches for combustible purposes has been vindicated, and the impudence of Jamaica negroes has been rebuked. All that is now wanting is some poets to assist in transmitting this great victory to posterity." Then follow the particulars of the affair with the statement that "in view of the difficulty of being brief upon such an inspiring topic, we have deemed it proper to limit the candidates for the highest premium to one hundred lines. Upon those who write for the lower prizes we shall impose no restriction. They need not stop until they feel perfectly relieved."

The following hints as to the manner in which the subject is to be treated, will be serviceable to those who think of "putting in" for the prizes:

Without intending to meddle with what is exclusively an affair of the muses, we may be excused for suggesting a few points which, we hope, will not altogether escape the attention of those who may be inspired with our offer. We would have them give due prominence to the fact that there were no lives lost at the fall of Greytown—that it was a bloodless victory. The extemporaneous homes selected by the people in the wood, when they heard of Capt. Hollins' intentions, deserve an allusion. It would be worth the while of any poet with a scientific turn of mind to see if he could not make something out of the difficulty experienced by our brave commander in accomplishing his purposes upon the town, in consequence of the non-resisting texture of its edifices. A good word about the peace society would be due here. We shall expect something impressive and picturesque in the description of Captain Hollins standing with his glass upon the quarter deck, perpend whether to send Lieutenant Pickering ashore with a box of lucifer matches to fire the town, or to postpone the landing until the fire from his batteries had further diminished the risk of such an enterprise.

A description of the whole scene, the ship at anchor, the captain and officers in their American uniforms, the smooth sea, the hot sun, the British schooner close by with her commander and officers looking on, so as to make a faithful report of the affair to their commodore; the deserted town, riddled with balls; the dusky inhabitants peering out of the woods in the distance, that they might not lose the fun as well as their property, and, finally, Lieut. Pickering going below to get a box of matches—all these things should be brought to bear at this point, in order that the reader may have time before he is hurried to the final catastrophe to realize the vast consequences impending upon Captain Hollins' deliberation. A fainting scene, perhaps, might be worked in here to advantage. Of course we need not say we expect every candidate "to go his length" on the grand combustion scene. That would be the place for the sublimity business to come in. The piece should wind up, of course, with a suitable doxology to the honor and glory of the administration which has added this brilliant chapter to the naval annals of our country.

IOWA ELECTIONS.—The result of the approaching election in Iowa, looks more and more doubtful as the contest draws nearer. The once triumphant democracy in that state have received a blow from the Nebraska bill, the effect of which will be most painfully seen at the polls. We shall not be surprised to hear of the election of a whig governor, whig legislature, and one whig congressman. Of course, those who commenced this last and most unnecessary slavery agitation, will attribute the result which we apprehend to the mischievous and the detestable abolitionists; but the people will know better, and fix the blame where it belongs. It is only too regretted that the August vote cannot reach directly, that pair of demagogues who have lately misrepresented Iowa in the United States senate.—Galena Jaff.

TRADE ABROAD.—The Paris correspondent of the New York Commercial writes: "Business in Paris continues dull, and there seems to be no probability of a speedy resumption. The orders which had been received from Spain, have been since countermanded on account of the revolt. The hotels are not full and there appears to be less traveling and touring than might have been expected."

The fugitive girl who left this city for Canada a few days since, has been heard from, all safe. The underground railroad is doing more business than it ought to.—Racine Adv.

The cholera still continues its ravages in the town of Friendship in this county. Mr. Henning, P. M. at that place, died day before yesterday, after only about an hour's sickness. We learn this morning that there were two or three other cases there last night, but had not yet learned the result.—Fond du Lac Herald.

and most magnificent ever before offered in Janesville.
Among our DRESS GOODS may be found the most
magnificent stock of Plain Black and Watered Gode
Blue Silks, and Plain Black and Striped Fancy Silks,
ever offered for sale in Janesville.
The attention of the Ladies is particularly directed
to our very extensive assortment of
PLAIN BLACK SILKS.

We have some better Goods than can be found at
any other store in the city, and our prices are as low as
you will have to pay for an inferior article at other
stores; also a very extensive assortment of All Wool
Silk and Wool-Plain and Figured Barges, Bar-
ge Delaines, &c.
Among our stock of low priced Dress Goods may be
found

stores 10¢ a yd.

ment of White Cape, Square and long, Plain and Fig-
ured Cashmere, Black and Color Silks, Barges, and
everything in the Shawl line, from the lowest price to

all the rest of the stores in Janesville put together,
consisting of Flowing Sleeves, Habits, Chemisettes, Col-
lars, &c., of the most fashionable goods in market, which
will be sold at LOW PRICES than ever before sold
in this State. The attention of the Ladies is particularly
directed to these Goods.

der sell any establishment in this city, at least 25 per-
cent.

ceived, and we are selling at 15¢ a yd. They cannot

reputation we have already gained, of underselling any
of our neighbors. Among our stock may be found 1,000
Linen Coats, warranted linen, at 75¢ each.

BOOTS AND SHOES.

complete, and the choicest kind of goods. We have a
few more chests of that excellent YOUNG HYSON
TEA, that we have been selling so much of. Good Sugar
for 1 1/2¢.

In conclusion, we would say that we find the Cash
System the only one that will win. We buy our goods
wholly for cash, and sell them for the same, and no
other way; and consequently those that buy and
sell on a credit of a year, eighteen months or two years,
as the case may be, cannot sell goods at our prices—
THAT'S SO! For the proof of our assertion, call and
examine our goods and prices.

Remember the Store, corner Main & Milwaukee streets.
M. JACKMAN, J. PARKER,
J. H. PARKER, JACKMAN, PARKER & CO.
Janesville, June 5th, 1854.

A GREAT MISTAKE.
J. B. CROSBY & Co.
HAVE just returned from New York and
Boston, and purchased a large stock of Merchandise
that they have not room to store them, and to remedy
this they have concluded to mark their goods
down.

A TRIFLE ABOVE COST,
which will crowd their store with customers and ensure
large and heavy sales, thus making room for goods yet
to arrive. Ladies and Gentlemen,
THIS IS NO HUMBUG,
but a REALITY, and to be convinced of this fact per-
sonally, look through their immense stock, see the
amount of goods they have in store, and that a portion
of their stock has yet arrived; enquire the prices, and
you will acknowledge that we will sell you
GOOD GOODS, at nearly half the Price,
that other Merchants charge. We shall not mention
a few leading articles and their prices, and sell the bal-
ance of stock at higher rates, as other Merchants do,
but shall mark our whole stock at a small regular profit,
and adhere strictly to it.

ONE PRICE SYSTEM.
Our stock consists of STAPLE AND FANCY DRY
GOODS, GROCERIES, CROCKERY, BOOTS AND
SHOES, HATS, CAPS, CARPETS, OIL CLOTHS,
READY-MADE CLOTHING, &c. &c., to which we
invite especial attention, as to quality and price, as we
are determined that
Every Sale shall give Full and Perfect Satisfaction.
Auction or shop worn goods which are not cheap
at any price we do not deal in; but only the best
grade of goods, and of the latest styles. We are the
only House in Janesville that do a strictly cash busi-
ness, and buying of importers and wholly for cash, we
CAN AND WILL SELL
CHEAPER AND BETTER GOODS,
than those who buy small stocks on time, and sell them
the same way.

To Country Merchants,
We would say, that we will sell you goods at New York
and Boston prices, adding freight. You will find us at
the old stand of J. B. CROSBY, two doors above the
Post Office.

1000 Dollars Reward,
WILL be given to any person—Physician or
otherwise—who will perform a cure as quickly and
permanently, by any means whatever, of any of the
following diseases, as can be done by the use of
PULVERMACH'S
Hydro-Electric Voltaic Chains.

Rheumatism, Nervous Headache,
Painful Swelled Joints, Palpitation of the Heart,
Sciatica, General Debility,
Paralysis, Female Diseases,
Spinal Disease, Neuralgia of the Face,
Headache, Biliousness, Hysterical Pains of the
Dyspepsia, Indigestion, Chest

ALL NERVOUS DISEASES
Are almost instantly removed by the simple application
of the Electric Chains, which are constructed so as to
be worn next to the skin, producing a constant current
of uninterrupted Electro-Magnetism, which within the
last few years has been discovered to possess STRONG
AND WONDERFUL POWER, in the INSTANT RELIEF
AND PERMANENT CURE of nervous diseases.

HISTORY.
Pulvermach's Chain are presented to the public, as
the most scientific and convenient mode of applying this
powerful agent. They have been secured by patent in
France, (where they were invented) England, Germany,
Austria, Belgium, and one year since introduced into
the United States, and also secured by patent. They
are used in every Hospital in the State of New York,
and highly recommended by professors Valentine Mott,
Nathan Churchill, Prof. Carnochan, of that city, who daily
make use of them in their practice.

THE WORLD IS CHALLENGED
to produce so many well authenticated certificates of
cure, not only from intelligent patients, but from scien-
tific Physicians. The sale now in New York is scien-
tific ASTONISHING, and thousands who will try the Crystal
Chain, and find it a relief, and will send full details to ob-
tain a chain before they leave the city.

Thanks be to the common sense of the people who
are beginning to become disgusted with the practice of
making a Drug Shop of their stomach—swallowing bot-
tles of medicine, and one year since introduced into
the United States, and also secured by patent. They
are used in every Hospital in the State of New York,
and highly recommended by professors Valentine Mott,
Nathan Churchill, Prof. Carnochan, of that city, who daily
make use of them in their practice.

CAUTION.
Ladies who are *enemies*, are requested not to wear
them, for by long use, miscarriage is apt to be pro-
duced. Price of Chains, \$3 to \$5, and can be sent by mail
to any part of the country, together with a pamphlet
of 86 pages, containing the modes of use, certificates of
cure, &c.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and has a right to the benefits of its funds, and is subject to no liability or assessments beyond his premium.

The directors are required to be peculiarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by the directors for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,

LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, including barns, household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

Mr. Walton, the nominee of the Vermont free soil convention for governor of the state, has declined. This is a very proper and sensible determination on the part of Mr. Walton, who has ever been a whig, and whose nomination by the free soilers at this time was ill-advised, if not designed for mischief. A whig convention had previously put a full ticket in nomination, a portion of which was claimed by the free soilers to have been taken from their ranks, and adopted as strong an anti-slavery platform as any body could ask. Yet notwithstanding this, and in face of oft-repeated professions of a desire to unite the anti-slavery sentiment of the state, a free soil convention was called and another ticket put in the field to divide and distract the strength it was professed to desire to combine. If this attempt at distraction shall fail, it will not be through want of effort with those who originated it. There is no earthly necessity, and can be no satisfactory excuse, for a third ticket in Vermont, and if Mr. Walton's place is filled with a new name and the ticket kept in the field, it will be conclusive evidence that the free soilers intend to aid only the loco-foco party, and that its "union" proclivities now and hereafter, are only available for the defeat of whig candidates.

KANSAS.—There are contradictory rumors as to the condition of affairs in this new territory. A correspondent of the Worcester Spy, writing from that region, says that a majority of the Missourians who have arrived there, far from countenancing the lawless protestations of a few of their number against the immigration of northern freemen into the territory, are opposed to slavery, and are even anxious to have northern and eastern men settle there, regarding them as the most enterprising and the best fitted to build up a flourishing state. He says the resolutions adopted by a few hot headed fanatics are by no means a fair sample of the public feeling.

If this report truly represents the feeling in the new territory, and among the people in Missouri, we shall truly rejoice, but we fear the picture is too dimly drawn. The intent of those who repealed the restriction of 1820 was to make both Nebraska and Kansas slave states, and one of the best authorities we have seen as to the movements now taking place in their settlement, says the design is to secure Kansas for slavery, even if its advocates must abandon Nebraska to accomplish their object. We hope both territories will be saved from the grasp of the slaveholders; but if they are, we must attribute their preservation to an outraged northern sentiment thwarting a well-laid plot in its inception, and peopling those vast regions with a very different population from that designed to be sent or is wanted there. In this case, good may come out of an evil design, but we shall have no thanks to offer to those who are overruled, and the originators and abettors of the evil are none the less deserving rebuke and condemnation.

The postmaster at Chicago writes to the editor of the Wisconsin, in answer to a letter from him relating to the delay of mail matter in his office, that he must acknowledge that the delay might occur in the Chicago office, and attributes it to sickness among the clerks. But he says for the last few days everything that has come in, has gone out regularly, and the old matter that was on hand has mostly been got off. If such is the fact, we cannot account for our receiving three numbers of the Chicago Daily Tribune yesterday morning, Friday, Saturday and Monday's issues of that paper. The non-receipt of the Chicago papers is a common occurrence. We do not think the reason given by the postmaster is sufficient to account satisfactorily for the delinquencies of his office. It is easy to see how sudden sickness among clerks might for a day or two delay the matter passing through the office, but it takes but a short time to instruct new clerks and thus obviate the difficulty. We have reason to believe that the Chicago papers are sent from the publication offices regularly to the post office; the mail comes through directly without being opened, between Chicago and this city, and yet the regular receipt of papers from there is the exception and not the rule. The department had better establish two or three more distributing offices in the north-west; the Chicago office is not adequate to the business.

CUSTOM HOUSES IN THE WEST.—The amendment to the civil and diplomatic appropriation bill, offered by Hamlin, for custom houses, etc., in the west, has been adopted in the senate by a vote of 31 to 16. The amendment contains an item of \$88,000 for a building in Buffalo, suited to custom house and post-office purposes. Milwaukee has an appropriation of \$50,000 for similar purposes, and Cleveland, Detroit and Chicago get large amounts for the same objects.

THE ADMINISTRATION AND GREYTOWN.—The New Bedford Mercury, alluding to the Greytown affair, says that the administration has shown more magnanimity than could have been expected by its most ardent admirers. It felt obliged to thrash somebody, and it has taken one of its size!

On motion of Mr. Mason, of Virginia, the senate have adopted an amendment to the civil and diplomatic appropriation bill, allowing Mr. Schenck, while minister at Buenos Ayres, his actual expenses, and twenty-five dollars per day each, for six months, while on special business to the governments of Paraguay and Uruguay.

SYNOPSIS OF THE NEWS BY THE CANADA.

Flour declined 3 shillings to 4 shillings per barrel. Wheat declined 1 shilling per hundred weight.

The Nicholas had arrived at London from the Baltic. She left Baro sound with the allied fleet on the 18th. The fleet went to Aland island. A letter from Kiel of the 16th says the French exploring army of the Baltic will disembark provisionally at Finland.

Denmark will soon abandon her neutrality.—Prussia and Austria have asked France and England for stated conditions upon which they will conclude peace. Military operations are said to be near at hand. The attack on Sebastopol was indefinitely postponed, and that upon Cronstadt would not take place for a year. A pitched battle near Bucharest is anticipated.

Spain.—Advices from Madrid to the 18th state that the insurgents are masters of that city. A later dispatch states that a battle was fought between O'Donnell and the queen's forces; the latter were defeated and the general wounded and taken prisoner. The populace sacked the Christine palace at Salamanca.

In the English house of commons the earl of Warrington asked ministers whether Lord Westmoreland had been authorized to state to the cabinet of Vienna that Polish subjects of Russia will not be allowed to enter the English army or follow the standard of the allies. The earl of Aberdeen denied that such instructions had been given. A message from the queen asks the concurrence of the house of lords in measure for providing for additional expenses which may occur in the war, offensive and defensive against the emperor of Russia.

A private despatch from Constantinople stated that the Russians had met with a check near Batum. No change expected in the state of eastern affairs till after further consideration by the English and French governments of the conduct of Austria. Austria has fallen back into an alliance with Russia, but the Austrian reserves are to be called out and placed on a war footing.

The Czar is determined not to yield, but discontent prevails at St. Petersburg. The recent victory at Giurgevo was achieved by the Turks unassisted, leaving the whole banks of the Danube from Guerin to Ottenitza in their hands. The main body of their army is moving toward the mouth of the Danube. The Russian Danube flotilla must soon fall into the hands of the allies and the navigation of the Danube be resumed. General Avrep, having been disgraced, shot himself. The combined fleets were seen on the Black sea sailing off Alkerman.

ASIA.—Kerow Pachia surprised 12,000 Russians and defeated them capturing 56 guns and 4000 men.

The cholera has nearly disappeared in Mexico, but the yellow fever is raging to an alarming extent; nearly 2000 cases within the past six weeks of which 1500 were fatal.

The Washington Union is trying its hand at satire, and succeeds most admirably.—It closes a long review of President Pierce's administration with the following exhibition of humor:

Nor should it escape notice that into every department of the government have been infused energy, vigilance, promptness, and economy—the necessary result of that indefatigable industry and rare devotion to the public service which so strongly characterize every member of his cabinet. Those delays heretofore deemed unavoidably incident to the vast and complicated system of public business, and which have not infrequently been tantamount to a denial of justice to the citizen exist no longer, and the administration in this regard may challenge a parallel from the foundation of the government. What administration, since the purer days of the republic, can present a nobler record of measures and acts, embodying and illustrating, without an exception, the truest principles of democracy?

In the illustrious roll of our patriot presidents, where, since the days of Washington, will history point to one more "clear in his high office" than Franklin Pierce? "In pace decus, in bello presidium."

A translation of the Latin of the administrative organ would be—"In peace, an honor; in war, a defence," and is a fitting sequel to the "energy," "vigilance," "promptness," "economy," "indefatigable industry," and "rare devotion" displayed by the government in all its acts and particularly exemplified in the post office department.

TERRA-CULTURE TO A NEW USE.—We find in the Milwaukee News of the 2d, under the head of "Russell Comstock and Milwaukee railroads," the following announcement:

"This distinguished gentleman, during the cholera and busy harvest season—returns to Mabbettsville, Dutchess county, N. Y., his native county, to negotiate for prosecuting the construction of all the Milwaukee railroads.

"His system of terra-culture should be patronized by government."

The process by which this "distinguished gentleman," who avoids alike the "cholera" and "harvest season," is to construct all the Milwaukee railroads, (query—all on the Sentinel's map?) is not stated, but we presume his plan is to put them through a "course of sprouts." The restricted sphere of Mr. Russell Comstock we fear will prove his ruin. So towering a genius as his ought not to tangle itself with Wisconsin crops or Milwaukee railroads; the "government" ought by all means to give him a chance at the cotton fields of Florida, simultaneous with the corn crop of Illinois, and put in his charge the contemplated railroads to the Pacific in addition to the self-imposed task of constructing those radiating from the "city of bricks."

P. S. We don't make any charge against Mr. Comstock for this friendly notice, though if he will exhibit his usual appreciation of a printer's services and tender us enough to pay for setting up the type, we may be induced to give him another lift in his disinterested and self-sacrificing labors.

For the Gazette

Messrs Editors:—Having been lately reading some of the arguments of the friends of Lord North and the supporters of those extreme measures which drove the colonies into rebellion, I am struck with the great similarity of the reasoning with that of those who denounce the decision of our supreme court, and contend for the constitutionality of the fugitive slave act.

The same power claimed for the mother country over the colonies, is now claimed for the general government over the states. The mother country claimed the right to nullify all acts of the colonial legislatures, when they came in conflict with hers. The same is claimed for the general government here now. This power, or the right to it, was based on the assumption that the colonies had no political rights except what were given them by the royal charters; and in that there was less fallacy and more real consistency than in the position and arguments of our fugitive slave law advocates. This must be understood by the most obtuse mind. In their case the colonies were the offspring of the mother country; in ours the general government is the creation of the states. In the former, the mother country was the creating power and unlimited; whilst ours is not only limited in its power, but actually prohibited from exercising any others except those positively specified. The constitution is a compact between the states, and out of that compact sprang the general government—a thing of borrowed powers, holding about the same relation to the states as the by-laws of a society do to its constitution.

The constitution is a perfectly plain and carefully worded document, easily comprehended by the meanest understanding, and if it gave congress the power over slavery in the states, it might easily be pointed out; but it cannot be done, for the simple reason it is not there. The powers of congress are all clearly and specifically enumerated; but it is no where says that congress shall have power to provide for the rendition of fugitives from labor. No where! And the history of the proceedings of the convention that framed that instrument, proves conclusively that it never was dreamed of. The further step taken in this direction by that convention, was a proposition requiring fugitive slaves to be delivered up like criminals. This was objected to on the ground that it would require to be done by the executives of the state and at the public expense. Mr. Sherman said that the public had no more right to seize and surrender a slave, or a servant, than a horse.

The proposition was withdrawn, and the present stipulation contained in section 2d, article 4, that the character of property attaching to him before his escape, shall still attach to him in any state to which he may flee, (just the same as it does to a horse or other property, and must be delivered in the same way,) was substituted in its place. Clearly then the fugitive slave act is unconstitutional, and the decision of judges, nor legislative resolutions, can no more make it so than they did the alien and sedition laws; and the men who now sustain the one would have sustained the others; would have been Tories in the revolution, and sustained North and all his diabolical measures.

It is not a little remarkable how deeply those men are in love with law and order, how terribly afraid they are of the reign of anarchy; whether just or unjust, the laws must be sustained, or consequences the most awful will ensue. Now I have read history a little, and its testimony is, that nothing drives a people to madness like a rigorous enforcement of unjust laws. There is not an instance on record, to my knowledge, where a people have ever rebelled against prince or potentate in consequence of laws founded in justice and humanity. Power is certainly stealing away from the many, and centering in the few; therefore it is its centralization, not its diffusion we have to fear.

VERITAS.

CONGRESSIONAL CONVENTION.—The state central committee appointed at the Madison state convention have called a delegate congressional convention for the district composed of Kenosha, Racine, Milwaukee and Waukesha counties, to meet at the village of Rochester, in Racine county, on the 6th of September next, to nominate a candidate to be supported at the coming election. Two delegates for each assembly district.

IN A FIX.—The Milwaukee Wisconsin says that 1037 bars of railroad iron were received there Monday morning from Quebec, consigned to order, as it was impossible to tell who owned them, the railroad business being so mixed up by the Schuyler failure.

Charles Fillmore, a brother of ex-president Fillmore, died of cholera recently at St. Paul, Minnesota. The only daughter of the ex-president, it will be remembered, died near Buffalo but a short time previous of the same disease.

Tuesday evening, Aug. 1st, we received the Chicago Tribune of July 23, 29 and 31, and Young America of the 25th.

The earnings of the Milwaukee and Mississippi railroad for the month of July just past were \$36,546.86; for the month of June preceding \$28,258.26.

NASHVILLE, July 20. Dr. Jane, of this city, placed a keg of gunpowder under his house to-day and blew it up, perishing in the ruins. The fire communicated to four adjoining buildings, which were also destroyed. The loss is considerable. The doctor is supposed to have been insane.

The entire line of railway from Chicago to Alton, (227 miles) was opened on Monday the 31st of July. It is of the first importance to the southwestern travel, which more and more flows to the north.

A telegraphic dispatch from Quebec, announces the death there on Monday, by cholera, of colonel Hogarth, commanding the 26th regiment of British infantry. He was in command of the regiment during the Gavazzi riots.

A FUGITIVE FROM HER OWN FATHER.—The

editor of the Vermont Tribune gives a thrilling account of a fugitive slave who has just been passed through Vermont to Canada. He says: "She is 20 years of age, tall, well formed, and of far more than an ordinary intelligence, able to read fluently, a member of the Methodist church, and the daughter of her master's wife, she was running away from her own father, Rufin Gilchrist, of Easton, Md., because he had sold her to a South Carolinian for \$1,100. This Rufin had sold his own flesh and blood for so much hard cash, and but for his daughter's shrewdness and heroism would now be finger the price of blood. Charlotte, the fugitive, ran away, lay secreted in the woods eighteen days, found a friend in Baltimore who sent her to a Quaker in Philadelphia by railroad, by a mode we dare not tell lest it should involve him in trouble. Her long exposure and dreadful journey to Philadelphia brought on a fever, from the effects of which she had not recovered when here at St. Albans. From Philadelphia to Boston by sea, thence to Maine, and then to avoid some bloodhounds and southerners who were on her track, she turned her steps this way, avoiding her pursuers with consummate address, and finding excellent friends all the way, good accommodations on the U. R. R., with the money given her here, she went on her hurried way to the only land where she could breathe freely.

AFFLICTING DISPENSATION.—We regret to learn from the Morning News of yesterday, that our state treasurer, Edward H. Janssen, lost a brother, sister and three children by the cholera, during last week. Mr. Janssen and his wife were also attacked with the disease, but are recovering. A local cause about the premises of Mr. Janssen, in Mequon, Ozaukee county, is assigned for the fatal prevalence of the cholera there. Some three years ago Mr. Janssen lost two of his children by the burning of his house, and now all the rest of the family have been swept away by the cholera. The people of this state will sympathize deeply and sincerely in this sad affliction which has befallen Mr. Janssen.—*Mil. Sent.*, yesterday.

The Evening Post offers five premiums, ranging from twenty-five dollars to six and a quarter cents, for the five best poems, to be written in commemoration of the recent brilliant achievement at Greytown. The editor says: "Our navy has achieved a great victory; with a single sloop-of-war, one of our gallant captains has scared the inhabitants of a foreign island, into the woods, and burned their houses to ashes. The efficiency of our fleet matches for our consular purposes has been vindicated, and the impudence of Jamaica negroes has been rebuked. All that is now wanting is some poets to assist in transmitting this great victory to posterity." Then follow the particulars of the affair with the statement that "in view of the difficulty of being brief upon such an inspiring topic, we have deemed it proper to limit the candidates for the highest premium to one hundred lines. Upon those who write for the lower prizes we shall impose no restriction. They need not stop until the local poeticality is relieved."

The following hints as to the manner in which the subject is to be treated, will be serviceable to those who think of "putting in" for the prizes:—Without intending to meddle with what is exclusively an affair of the muses, we may be excused for suggesting a few points which, we hope, will not altogether escape the attention of those who may be inspired with our offer. We would have them give due prominence to the fact that there were no lives lost at the fall of Greytown—that it was a bloodless victory. The extemporaneous lunces selected by the people in the wood, when they heard of Capt. Hollins' intentions, deserve an allusion. It would be worth the while of any poet with a scientific turn of mind to see if he could not make something out of the difficulty experienced by our brave commander in accomplishing his purposes upon the town, in consequence of the non-resisting texture of its edifices. A good word about the peace society would be due here. We shall expect something impressive and picturesque in the description of Captain Hollins standing with his glass upon the quarter deck, perceiving whether to send Lieutenant Pickering ashore with a box of lucifer matches to fire the town, or to postpone the landing until the fire from his batteries had further diminished the risk of such an enterprise.

A description of the whole scene, the ship at anchor, the captain and officers in their American uniforms, the smooth sea, the hot sun, the British schooner close by with her commander and officers looking on, so as to make a faithful report of the affair to their commodore; the deserted town, riddled with balls; the dusky inhabitants peering out of the woods in the distance, that they might not lose the fun as well as their property, and, finally, Lieut. Pickering going below to get a box of matches—all these things should be brought to bear at this point, in order that the reader may have time before he is hurried to the final catastrophe to realize the vast consequences impending upon Captain Hollins' deliberation. A fainting scene, perhaps, might be worked in here to advantage. Of course we need not say we expect every candidate "to go his length" on the grand combustion scene. That would be the place for the sublimity business to come in. The piece should wind up, of course, with a suitable doxology to the honor and glory of the administration which has added this brilliant chapter to the naval annals of our country.

IOWA ELECTION.—The result of the approaching election in Iowa, looks more and more doubtful as the contest draws nearer. The once triumphant democrat in that state have received a blow from the Nebraska bill, the effect of which will be most painfully seen at the polls. We shall not be surprised to hear of the election of a whig governor, whig legislature, and one whig congressman. Of course, those who commenced this last and most unnecessary slavery agitation, will attribute the result which we apprehend to the mischievous and detestable abolitionists; but the people will know better, and fix the blame where it belongs. It is only to be regretted that the August vote cannot reach, directly, that pair of demagogues who have lately misrepresented Iowa in the United States senate.—*Galena Jeff.*

TRADE ABROAD.—The Paris correspondent of the New York Commercial writes: Business in Paris continues dull, and there seems to be no probability of a speedy resumption. The orders which had been received from Spain, have been since countermanded on account of the revolt. The hotels are not full and there appears to be less traveling and tour-making than might have been expected.

The fugitive girl who left this city for Canada a few days since, has been heard from, all safe. The underground railroad is doing more business than it ought to.—*Racine Adv.*

The cholera still continues its ravages in the town of Friendship in this county. Mr. Henning, P. M. at that place, died day before yesterday, after only about an hour's sickness. We learn this morning that there were two or three other cases there last night, but had not yet learned the result.—*Fond du Lac Herald.*

RAILROAD STORE!
I WISH to call attention, as I have
done before,
To the Goods I am receiving now at the Railroad Store.
Where all the newest Fashions, to suit the young and
old,
The richest and the cheapest goods in Milwaukee, will
be sold.
My large and splendid stock of Leghorns to show I am
always willing.
The price, as all the Ladies know, is from sixpence to a
shilling.
I've Fine Black Silks from Italy, and colored ones that's
rare.
Fluad, Crodenaps and Marcellines, and Florences to
spare.

And such a lot of Hosiery, I know cannot be best,
And Gloves a great variety, they are so very neat.
Just now, when Spring is coming, and every thing looks
bright,
For a glove to suit the season, the color should be light.
There are other Goods for Ladies, of which they ought
to know.
I keep in those blue boxes, and am always pleased
to show.
Such as Blonde and Linen Edging, Cotton and Cambric,
&c., &c.
Muslin and Cambric Needlework, and Gimps of every
hue.
Those Underliners and Chinissettes I almost had for-
got.
And Ladies' Needlework Collars, so beautifully wrought,
With Blouses and Cambrics, and Muslins fine
and neat.
And Lace to make old ladies' Caps and trim them off
complete.
And to parry Sol's "direct rays," I've Parasols to
sell.
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gentlemen, and so at last they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and
kind,
To puff, or curl, or plait the hair, no better can you
find.
And every kind of Buttons for dresses, coats and vests.
To sell by the gross or dozen—they are the very best.
And for Gentlemen and little Boys I have Fashionable
Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather
Caps.
And for infants, Hats with feathers and ribbons gay
and bright.
And little Caps with tassels drab, orange, blue and
white.

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right.
To make up into coats and pantaloons and vests.
As large a stock as any, that ever was brought West.
They say long advertisements, are not the oftentimes
read.
And that most may be meant, as oft, when least is said;
In view of this, I'll close my bill, and here invite you
all,
Whenever you come to Janesville, be sure and give me
a call.

JANESVILLE, June 5th, 1854.

A GREAT MISTAKE.
J. B. CROSBY & Co.
HAVE just returned from New York and
Boston, and purchased a large stock of Merchandise
that they have not room to store them, and to re-
medy this, they have concluded to mark their goods
down at

A TRIFLE ABOVE COST,
which will crowd their store with customers, and enable
large and heavy sales, thus making room for goods yet
to arrive. Ladies and Gentlemen,
THIS IS NO HUMBUG,
but a REALITY, and to be convinced of this fact per-
sonally, look through their immense stock; see the
amount of goods they have in store, (and but a portion
of their stock has yet arrived,) enquire the price, and
you will acknowledge that we will sell you
GOOD GOODS, at nearly half the Price,
that other Merchants charge. We shall not mention
a few leading articles and their prices, and sell the bal-
ance of stock at higher rates, as other Merchants do,
and adhere strictly to the

ONE PRICE SYSTEM.
Our stock consists of STAPLE AND FANCY DRY
GOODS, GROCERIES, CROCKERY, BOOTS AND
SHOES, HATS, CAPS, CARPETS, OIL CANS,
READY-MADE CLOTHING, &c., &c., to which we
invite especial attention, as to quality and price, as we
are determined that

Every Sale shall give Full and Perfect
Satisfaction.
And either shop worn goods which are not cheap a
price, or we do not deal in them, but only the best
grade of goods, and of the latest styles. We are the
only House in Janesville that do a strictly cash busi-
ness, and buying of importers and wholly for cash, we
can and will sell

CHEAPER AND BETTER GOODS.
than those who buy small stocks on time, and sell them
the same way.

To Country Merchants,
We would say, that we will sell you goods at New York
prices, at Boston prices, or at any other place, and at
the old stand of J. B. CROSBY, two doors above the
Post Office.

1000 Dollars Reward,
Will be given to any person—Physician or

permanently, by any means whatever, of any of the
following diseases, as can be done by the use of
PULVERMACHER'S
Hydro-Electric Voltaic Chains.

Rheumatism. Nervous Headache,
Painful and Swollen Joints, Palpitation of the Heart,
Sciatic Rheumatism, Neuralgia, and all the
Paralysis. Female Diseases,
Spinal Disease, Neuritis of the Face,
Dyspepsia, Indigestion, Rheumatic Pains of the
Extremities, &c.

ALL NERVOUS DISEASES
Are almost instantly removed by the simple application
of the Electric Chains, which are constructed so as to
be worn next to the skin, producing a constant current
of electricity, and thus curing the disease. The chains
last for years, and have been discovered to possess STRANGE
AND WONDERFUL POWER, in the INSTANT RELIEF
AND PERMANENT CURE of nervous diseases.

HISTORY.
Pulvermacher's Chains are presented to the public, as
the most scientific and convenient mode of applying the
electric current to the human system, and have been
France, where they were invented (England, Germany,
Austria, Belgium, and one year since, introduced into
the United States, and also secured by patent. They
are the only chains of the kind, and are the only ones
and highly recommended by professors Valentine, Mott,
Van Buren, Post, Camacho, of that city, who daily
make use of them in their practice.

THE WORLD IS CHALLENGED
to produce so many well authenticated certificates of
cure, as to the efficacy of the Electric Chains, as to
be worn next to the skin, producing a constant current
of electricity, and thus curing the disease. The chains
last for years, and have been discovered to possess STRANGE
AND WONDERFUL POWER, in the INSTANT RELIEF
AND PERMANENT CURE of nervous diseases.

The care taken in selecting their goods, and the
attention bestowed upon the important branch of their
trade will, it is thought, be apparent at once, and they
accordingly invite an examination by the Profession,
promising, that while they offer **PURE AND UNADUL-**
TERATED ARTICLES, the **Prices** shall be at the **Low-**
est possible market.

A GREAT MISTAKE.
J. B. CROSBY & Co.
HAVE just returned from New York and
London, and purchased so large a stock of Merchan-
dise that they have been obliged to store them, and to
reduce them, they have concluded to mark their goods
down at

A TRIFLE ABOVE COST,
which will crowd their store with customers and ensure
large and heavy sales, thus making room for goods yet
to arrive. Ladies and Gentlemen,

THIS IS NO HUMBUG,
but a **REALITY**, and to be convinced of this fact per-
sons who desire to purchase, should call and see, as we
amount of goods they have in store, (and but a portion
of their stock has yet arrived,) enquire the price, and
you will acknowledge that we will sell you

GOOD GOODS, at nearly half the Price,
that other Merchants charge. We shall not mention
a few leading articles and their prices, and sell the bal-
ance of our stock at higher rates, as other Merchants do, but
shall mark our whole stock at a small regular profit,
and adhere strictly to it.

ONE PRICE SYSTEM.
Our stock consists of STAPLE AND FANCY DRY
GOODS, GROCERIES, CROCKERY, BOOTS AND
SHOES, HATS, CAPS, CARPETS, OIL CLOTHS,
READY-MADE CLOTHING, and every thing else that
is in constant demand, and at a quality and price, as we
are determined that.

Any one who shop with goods which are not cheap
at any price we do not deal in; but only the best
grade of goods, and of the latest styles. We are the
only House in Janesville that do a strictly cash busi-
ness, and buy of importers and wholesale for cash, we
shall mark our whole stock at a small regular profit,
and adhere strictly to it.

CAN AND WILL SELL
CHEAPER AND BETTER GOODS,
than those who buy small stocks on time, and sell them
the same way.

To Country Merchants.
We would say, that we will sell you goods in New York
and Boston prices, adding freight. You will find us at
the old stand of J. B. CROSBY, two doors above the
Post Office.
